

Legacy-Accounts Renewal Rate Schedule — Effective through 12/09/2025

Effective: 09/01/2025 through 12/09/2025 | Document Owner: VP, Paid Media | Version: v1.0

1. Scope

This schedule governs management fees applied to inherited-Bramwell account **renewal events** only (not ongoing billing, which continues under Thornfield's standard 12% rate card). It applies exclusively to customer records carrying the ERPNext account_origin = "Inherited — Bramwell" designation whose renewal effective date falls on or before 12/09/2025. Accounts native to Thornfield, and any inherited-Bramwell account outside of a renewal event, are governed by the standard Thornfield Rate Card and are outside the scope of this document.

2. Rates / Terms

Item	Rate / Term
Legacy-Accounts Renewal Management Fee	11% of managed spend at renewal , for inherited-Bramwell accounts renewing on or before 12/09/2025.
Applicability Window	Renewal effective dates from 09/01/2025 through 12/09/2025, inclusive.
Fee Basis	Qualifying managed platform spend billed for the renewal term.

3. Notes

The 11% legacy renewal rate is a narrower, renewal-only schedule and is distinct from the company-wide 12% base management fee set out in the Thornfield Standard Rate Card. Ongoing monthly billing for inherited-Bramwell accounts — including any billing that falls between renewal events — continues under the standard 12% schedule and is not affected by this document.¹

Rate lock-in is determined by the renewal effective date recorded against the underlying Sales Order in ERPNext (custom field: renewal_date). An inherited-Bramwell account whose renewal effective date is 12/09/2025 or earlier is governed by this schedule for the resulting renewal term, regardless of when downstream monthly invoices are subsequently issued.

¹ Successor schedule (v2.0), issued 12/10/2025, governs inherited-Bramwell renewals with effective dates on or after 12/10/2025. This document remains authoritative for any legacy renewal locked in on or before 12/09/2025.
